Sustainable Inventory Savings

Complete
Correct &
Consistent

Parts BOM

The Bill Of Material (BOM) is essential to protect your assets longevity, maintainability and ensures the accuracy of spare parts.

An accurate BOM reduces inventory and creates effective PM activities.

MRO3i™ software developed and implemented by the **Net Results Group** offers your organization a technologically advanced inventory management tool to create complete, correct, and consistent BOMs for your assets.

MRO3i™ standardizes your organization's BOMs with consistent data descriptions, part numbers and associates the right parts to the right assets.

You'll benefit with fewer incorrect purchases, faster execution of planned or unplanned repairs, and the disposition of inactive spare parts.

With MRO3i™, building a BOM is efficient, user-friendly, and unquestionably accurate.

Parts BoM

The parts BOM is a multi-level document that provides build data for assets and multiple asset sub-assemblies.

A complete BOM itemizes inventory items linking them to all associated assets.

Accurate BOM's contribute to reducing the downtime of both corrective and planned maintenance activities.

Your maintenance personnel will have the correct parts for asset repairs.

Purchase requisitions from accurate BOM's reduce redundant and incorrect purchases.

Through accurate BOM's you'll streamline inventory operations and reduce overall expenses.

MRO parts substitutions and standardization are critical to minimize downtime and ensure precise, timely asset repair operations.

The MRO3i™ advanced technology suite continually analyzes and updates asset BOM's.

MRO3i™ advanced technology suite utilizes a service based connection tool to interface with other computer systems.

Your MRO parts inventory and BOM's are always accurate and up-to-date.

Inventory disposition of obsolete or rarely used MRO items becomes easier and more effective with accurate and complete BOM's.

MRO3i™ empowers your organization to strategically analyze its' inventory and create accurate, usable BOM's.

Net Results Group, LLC assist clients in all aspects of MRO practices encompassing material provisioning, inventory management, material usability and dispositioning..

Our cloud based MRO3i™ technology suite, connects to your MRO catalogue through our portal to structure your data, enabling better inventory management across your entire organization.
